CHOKE CATALOG

The Story of **Aksay Silah**

Aksay Av Tüfegi Silah Sanayi ve Ticaret Ltd. Sti. was founded in 1991 in Huglu/Beysehir is the district of Konya, Turkey. Besides machinery Technologies and milling strategies, we are one of the first company in shotgun industry specifically spare parts production. Our story was started with manuel milling and lathe machines. Aksay Silah, day by day, were improved machinery line with CNC machines. Today Aksay Silah is continuining their production with brandnew cnc machines and Professional team. With our 30 years of experience and newest technology investments, we are focusing on high quality porduction and non-stop business flow. Aksay Silah meet, the shotguns industry's need with high quality production and special shotguns. Aksay shotguns fundamentals has not only depends on production technology but also durability, and design.

Extended Choke Set

■ EXT S-1

■ EXT S-2

■ EXT S-3

■ Compatible with Beretta, Benelli, Browning and others.

Aksay Extended Choke Tubes are produced with high quality precision. The most important side of choke tube production is meet the shooter's need perfectly. This perfection has a few basic fundamentals. This basics define with production method, row material, best cnc machines, coating and standardization.

■ EXT S-4

■ EXT S-5

■ Compatible with Beretta, Benelli, Browning and others.

Hardcase

■ EXT M-1

■ EXT M-2

Aksay Silah choke tubes are produced from 4140 grade special barrel steel. The barrel of shotgun and choke tube adaptation is not only depends on perfect dimensions but also depends on material of choke tubes. 4140 Grade steel is very homogenous and powerful material for barrel and choke tubes production. Additionally we are preferring barrel steel which is prepared for shotgun barrels and related products.

■ Compatible with Beretta, Benelli, Browning and others.

Extended Choke Flash Hider

Our cnc machines are brand new and high segment brands. Thanks to our high quality machines we can make standardization.

■ EXT + FH-1

■ EXT + FH-2

■ Compatible with Beretta, Benelli, Browning and others.

All choke tubes, drilled from 4140 steel. Drilling method is very hard to success, because of that we are directly use this method for make quality best and durability. Our choke tubes production is same method of barrel production this principle is increase our durability and standardization.

The durability of Aksay Silah Extended Choke Tubes, depends on highest quality raw material and production technics. According to our durability tests proved us Aksay Silah Choke Tubes could make over than 20000 shots.

■ EXT + FH-3

■ EXT 1

■ Compatible with Beretta, Benelli, Browning and others.

Extended Choke Set

Durability is main principle of Aksay Silah products. For our choke tubes we prefer White chrome nickel coating and for alloy parts we are using 7075 aviation grade aluminum and anodize coating.

■ EXT C-1

■ EXT C-2

■ Compatible with Beretta, Benelli, Browning and others.

Mobile Choke Set
